#### **OVERVIEW**

The DHS PushButtonPD™ is a no-cost, self-contained, Excel workbook under 5 MB. Managers, supervisors, and HR Specialists can rapidly draft Position Descriptions without the need for extensive training or prior knowledge of position classification. The entire draft PD generation timeline becomes a process that can be completed, not in days, but in a matter of hours. It is designed to present language from multiple authoritative sources and standards for duty, task, and KSA (knowledge, skills, and abilities); rapidly capture the hiring official's requirements; and present them in a package that can be easily integrated into the agency's current HR processes. The underlying data within the tool may be updated or customized locally as an Excel Spreadsheet, without tech support.

The tool is provided free, at no cost, to other U.S. federal departments and agencies.

### **GEN5 CAPABILITIES**

DHS PushButtonPD<sup>™</sup> currently supports 77 Occupational Series

Supported Occupational Corios		
Supported Occupational Series		
1. 0080 Security Administration with 42. 0856 Electronics Technical		
parentheticals 43. 0873 Marine Survey Technical		
2. 0089 Emergency Management Specialist 44. 0895 Industrial Engineering Technical		
3. 0132 Intelligence (Depreciated) 45. 0950 Paralegal Specialist		
4. 0201 HR Specialist with parentheticals 46. 0962 Contact Representative		
5. 0301 Miscellaneous Administration and 47. 0963 Legal Instruments Examining		
Program Specialist 48. 0986 Legal Assistance with parentheticals		
6. 0306 Government Information Specialist 49. 0998 Claims Assistance and Examining wi	tn	
7. 0332 Computer Operation parentheticals		
8. 0340 Program Manager 50. 1040 Language Specialist	1-	
9. 0343 Management and Program Analyst 51. 1102 Contract Specialist with parenthetica	IIS	
10. 0390 Telecom 52. 1104 Property Disposal		
11. 0391 Telecom with parentheticals 53. 1105 Purchasing		
12. 0501 Financial Administration and Program 54. 1106 Procurement Clerical and Technician		
13. 0510 Accounting 55. 1107 Property Disposal Clerical and Techr	ician	
14. 0511 Auditing 56. 1410 Librarian		
15. 0560 Budget Analysis 57. 1412 Technical Information Services		
16. 0601 General Medical and Healthcare 58. 1501 General Mathematics and Statistics		
17. 0602 Physician 59. 1510 Actuarial Science		
18. 0603 Physician Assistant 60. 1515 Operations Research		
19. 0610 Nursing 61. 1520 Mathematics		
20. 0630 Dietetics and Nutrition 62. 1529 Mathematical Statistics		
21. 0631 Occupational Therapy 63. 1530 Statistics with parentheticals		
22. 0633 Physical Therapy 64. 1550 Computer Scientist 65. 1801 General Inspection Investigative		
23. 0635 Kinesiotherapy 65. 1801 General Inspection Investigative 24. 0638 Recreation/Creative Arts Therapy Enforcement		
25. 0644 Clinical Laboratory Science 66. 1802 Compliance Inspection		
26. 0660 Pharmacy 67. 1805 Investigative Analyst		
27. 0662 Optometry 68. 1810 Investigative Analyst		
28. 0665 Speech/Language Pathology and 69. 1811 Criminal Investigator		
Audiology 70. 1895 CBP Officer		
29. 0668 Podiatry 70. 1895 CBF Officer 71. 1896 Border Patrol Agent		
30. 0680 Dentistry 71. 1896 Border Fattor Agent 72. 2003 Supply Program Management		
31. 0690 Industrial Hygiene 73. 2005 Supply Clerical and Technician		
32. 0696 Consumer Safety 74. 2010 Inventory Management		
33. 0801 General Engineering 75. 2030 Distribution Facilities and Storage		
34. 0802 Engineering Technical with parentheticals Management		
35. 0809 Construction Control Technical 76. 2032 Packaging		
36. 0810 Civil Engineer with parentheticals  76. 2032 Fackaging  77. 2210 IT Specialist with parentheticals		
37. 0817 Survey Technical		
38. 0830 Mechanical Engineer with parentheticals		
39. 0850 Electrical Engineering		
40. 0854 Computer Engineer with parentheticals		

41. 0855 Electronics Engineer

## GEN5 CAPABILITIES (Cont.)

Supported Parentheticals, and Prefixes		
Supervisory Title	Lead Title	
Project/Program Manager Parenthetical	IT Project/Program Manager Parenthetical	
Other Features		
DHS HSAC Mission-Critical Tasks and Skills	NIST NICE Framework Tasks and Skills	
NIST SP 800-16 Skills	OPM MOSAIC Skills	
Associated HR Forms generation	GS-pay scale	
Ability to mark Task or Skill Tags (to identify	Enforces critical "bright-line" rules; ex. 25% major	
qualifications for individual or group incentives /	duty; majority duty determines occupational series;	
benefits).	awards Occupational Series 0301 when no major	
	duty achieves 25%; amongst others.	
FAI Acquisition Codes and Language	DoD AT&L Code and Language	
NSF Functional Code	Rudimentary Export / Import capability	
One or Two-Step Ladder	Rudimentary editing	
NICE Framework Helper (helps identify the proper		
OPM Occupational Series and NICE Framework		
three-digit code based upon Job Title or Function		

#### OTHER CAPABILITIES

- Version Differences. There are five generations of the Tool; Gen1 through 5
  - Gen1 focused upon collecting functionality requirements from hiring officials. A meeting
    of the Department's technical cyber points of contact provided the original requirements
    for this tool version.
  - o Gen2 focused upon collecting functionality requirements from human capital classification specialists. The tool has been circulated within the cross-Component representatives on the DHS Classification Policy Council for comments and recommendations. Specific steps, such as allocation of the percentage of time to tasks, were a direct result of comments received from human capital personnel. It has been extensively demonstrated within the Department with pilots in different Headquarters elements.
  - o Gen3 approximately doubled the number of supported occupational series to incorporate both cyber and non-cyber positions.
  - o Gen4 added the following capabilities:
    - Two-step ladder generation (for non-Intel, non-supervisory)
    - Status indicator to help the user determine which steps to perform.
    - Step 5 processing and efficiency improvements (versus Gen3)
    - Rudimentary text editing capability from within the interface.
    - NICE Cybersecurity Workforce Framework (NCWF) code support
    - Acquisition code support (FAI and DoD AT&L)
  - o Gen5's new interface can now expand to incorporate more Occupational Series, as well as additional functionality enhancements
- <u>Efficiency</u>. The DHS PushButtonPD™ facilitates drafting a federal employee Position Description from scratch in one to three hours. The current record to generate a PD from scratch, edit, classify, transmit to OPM, and post the position on USAJobs is two weeks.
- <u>Standards</u>. The Tool comes preloaded with disparate standards from several Occupational Series
  and skill description sources. In theory, any skill source could be decomposed into a corresponding
  spreadsheet tab and maintained from there. Since the tool dynamically picks up any changes to
  the underlying spreadsheet; closing the user interface, making the spreadsheet change, and reopening the user interface is normally all that's needed to make a content change.
- <u>Effectiveness</u>. The DHS PushButtonPD™ requires little to no prior training in either tool functionality or the associated human capital processes. One hour of formal training is provided upon request. The DHS PushButtonPD™ has been used to generate actual Position Descriptions in at several offices both within DHS and other Federal Agencies.
- <u>Transferability</u>. The tool may be repopulated with locally-generated data to support virtually any Federal Organization. Interagency Memorandum of Agreements (MOAs) to access the source code are possible (with five officially signed as of December 2016).
- Scalability. The DHS PushButtonPD™ is largely only limited by Microsoft Excel's technical capabilities (specifically, the available memory in the system its run on). Currently, the tool is under 5 MB in size, contains no privacy data, and may be sent as a file attachment or posted to a website. Adding a new occupational series or occupational series parenthetical title (for well-formed data sets) normally takes one week.

### **BENEFITS**

Federal Employee hiring relies upon Job Opportunity Announcements which are sourced from Position Descriptions. However, it is difficult to keep Position Descriptions up-to-date and accurate, due to extensive review requirements performed by limited resources. Line managers typically do not receive formal training specifically in HR position classification, compounding the issue by 'not knowing the rules' applicable towards federal positions.

The purpose of the *DHS PushButtonPD™* is to allow Federal Employee hiring officials and/or HR liaisons to quickly draft accurate Position Descriptions from scratch, without formal training, and specifically cut down the time to generate accurate, required documentation from weeks/days down to days/hours. Additionally, supplemental HR forms are automatically generated, so that a reasonably complete draft HR package may be processed at once / in parallel, versus serially.

#### **USER COMMUNITY**

DHS PushButtonPD™ is available as an optional resource to hiring officials within the Department of Homeland Security; with a Public version of the tool available to the entire federal government. Potentially all agencies and offices within the Federal Government hiring any of the occupational series currently covered could utilize the tool.

#### INTEGRATION WITH EXISTING AGENCY OPERATIONS

In the strictest sense, this tool technically does not replace any existing process – merely organizes and accelerates them. The "disruptive innovation" aspect is that the tool was developed by cyberskills personnel to affect the HR process. Many HR PD tools have been developed over the years, however, this tool was designed to:

- a) In near-real-time, input hiring official requirements and output HR process requirements;
- b) Require minimal up-front training or knowledge of HR processes when utilized by Hiring Officials
- c) Ensure the HR classification specialist is able to quickly and correctly identify the Grade and Occupational Series-determining factors, thereby speeding position classification;
- d) Automatically generate the proper OPM Guide to Data Services (GDS) or NIST NICE cyberskill code
- e) Address many occupational series or skill standards, whether cyber or another field;
- f) Provide line-of-sight / auditability between the Agency or National Missions / Mission Standards, Position Description, the Job Opportunity Announcement, and the interview questions used to fill federal employee positions.
- g) Local data maintenance / update, without the need for tech support.
- h) Employ More-Agile-Than-Agile (MATA) development and deliver tangible operational results.
